TOWN GOVERNMENT.

The JOURNAL has not been favored with a copy of the law providing that the question of incorporation of the town of Reno be submitted to the people. The writer has not seen the law nor has he received any information respecting its provisions.

He learned from reports made, that a bill was introduced in the Assembly providing that the question of incorporation of the town be submitted to the voters of Reno, and subsequently he learned that the bill was made law. For this reason he is not in a position to discuss the merits of the law.

The question of incorporation as a general proposition, and independent of the law passed is subject to review, but in no other sense is the writer in a position to make any statement regarding the possible effect an incorporation under the law will have upon the town. The nearer government is brought to the people, when properly conducted, the better will government be as a whole for the people, but like all other business government is subject to proper or improper management by those who have in charge its direction.

Government by the people when so termed is not always government by them; the chief cause there is for conducting government in opposition to the wishes or best interests of the governed is to carry out the selfish feeling or interests of those directing government, who by representing the desires of a class, oppose the wishes and interests of the great body of the people, more particularly is it true that the masses are not regarded when prejudice or passion has taken hold upon the people or upon any portion of them. Then class legislation and class government becomes oppressive upon the people, which is more particularly true when the body governed is large, or when the government is national.

It has been said the less a people is governed the better it will be for the people, which means that the less in number are the rules applied to the people, the better it will be for them. When the people cannot move without rubbing themselves against some rule of government, it becomes irksome and oppressive; that is, when rules of government represented by law are so plentiful that the people are strictly confined to highways and to their residences there is not much liberty remaining for the poor or for any person who is not in some way identified with the privileged classes.

From such conditions come revolutions and more especially is it so when privileges are extended to taxation, or when the rule of taxation is applied by government without representation. The rule of taxation without representation will occupy the public mind in the near future more fully than it has been occupied by the question since the American and French revolutions.

The more near government is to the people the better will be their position to control taxation without representation. Do not suppose for a moment that all taxation without representation comes directly from government. It was true in the past that the principle was largely applied by government; conditions were then that the power of taxation was altogether in the power of government. In those times there were no large monopolies possessed with the power of taxation as there are at this time, nor were there a hundred years ago any large incorporations half public and half private, such as there are at present, possessed with the power of taxation without representation.

The more near government is to the people, the more power they will have to secure themselves against the application of the rule of taxation without representation. Town government, conducted under a corporate system, will be more convenient and more in accord with a republican system of government than it is under the general town system of the State, but the benefits to be derived from it will depend upon the attention there is given by the people to town government.

Made Up For Lost Time.

When President Kruger sailed for England some years ago, he was the object of much concern to his fellow passengers on board the liner from Cape Town, many of whom were consumed with curiosity when they noticed his absence from the dinner table for the first four days out.

On inquiry they found that the careful Transvaaler spent the dinner hour on deck, where he ate blitong and biscuits. When asked his reason, he testily replied, "I have no money to fool away on expensive eating, like you Englishmen."

The correspondent who tells the story and who was on board at the time adds, "You should have seen the old man trying to make up for lost time when it was explained to him that his passage money included his meals on board."

A Skeleton In Every Closet.

The expression "There is a skeleton in every closet" is said to have its origin in the fact that a soldier once wrote to his mother, who complained of her unhappiness, to have some sewing done for him by some one who had no cares or troubles. At last the mother found a woman who seemed to have no troubles, but when she told her business the woman took her to a closet containing a skeleton and said: "Madam, I try to keep my troubles to myself, but every night I am compelled by my husband to kiss this skeleton, who was once his rival. Think you, then, I can be happy?"

His Diagnosis.

Teacher—Suppose you had one pound of candy and gave two-thirds to your little sister and one-fourth to your little brother, what would you have your self?

Scholar—Well, I guess I'd have the measles or something so's I wouldn't feel much like eating.—Puck.

LIBRARY MEASURE

The New Law Provides for Lower Maximum Tax Levy.

Section 1. Whenever in any county in the State of Nevada over seven thousand inhabitants a petition or petitions for the establishment of a free public library, certified by the District Judge of any Judicial District of the State of Nevada as being signed by a majority of the taxpayers, or by taxpayers representing a majority of the taxable property, as shown by the last preceding assessment roll of any city, unincorporated town, or school district, shall be presented to the Board of County Commissioners of the county in which said city, unincorporated town or school district is situated, accompanied by affidavit of one or more of the signers thereof that the signatures thereto are genuine, the said Board of County Commissioners shall within ten days after said petition or petitions are so presented levy a tax upon all the taxable property of said city, unincorporated town, or school district of ten cents and no more, on each one hundred dollars valuation of the taxable property therein for the purpose of creating a fund to be known as the "Library Fund." And each year thereafter said Board of County Commissioners, at the time and in the manner other taxes are levied, shall levy a tax upon said property for said purpose of ten cents and no more on each one hundred dollars valuation thereof.
Section 2.—The State Board of Education of Nevada, whenever notified that a petition has been presented as provided in Section 1 of this Act, shall appoint three competent persons who are residents of such city, unincorporated town or school district, to be known as Library Trustees, who shall hold office for the period of one, two, and three years respectively, and said State Board of Education shall annually thereafter appoint one Library Trustee who shall hold office for the period of three years, and all vacancies which may occur at any time in the said office of Library Trustee shall be filled by appointment by the said State Board of Education; said Trustees shall serve without compensation, and shall hold office until their successors are appointed and qualified.

THE FIRE LADDIES

A Peep Into the Engine House—
Quick Horses and Quicker Men.

Daily at noon and 8 p. m. the fire bell clangs three times. At the first tap the firemen spring to position and the horses leap under the elevated harness. A moment or two of bustling activity and all is in readiness for the run to the scene of the fire, which latter doesn't take place, for this is simply drill.
In a month or two the exercise will be even more interesting, for by that time there will be a handsome new horse wagon in the engine house. The two horses that will draw it are already in their stalls, peacefully champing their bits. They are promising brutes and will be put through a course of sprouts that will enable them to land the horse wagon at the scene of the blaze in advance of the engine.
Reno has a tip-top fire department. The men who reside in the engine house are never caught napping when the bell taps. They are worthy their hire and, what they would value just as much, a word of kindly appreciation on the part of the public.

Illegal Fishing Should be Stopped.

Sportmen are feeling elated over the high water coming thus early in the season. The fish are moving up stream in increasing shoals.
Although the season does not open until the 1st of April, the fishermen are already preparing their outfits for the fray. To the credit of all true sportmen be it said that they are biding their time with all honesty. Some petty larceny law-breakers, however, are working spears, traps and grab-hooks, day and night. Great vigilance should be maintained by the officers to secure their capture.

The Sierra Valley railway, commonly called the Mohawk line, is to be extended to Mohawk valley within the next ninety days. He wrote to this effect to Will Sharkey, editor of the Sierra Valley Record, under recent date.

CONVENIENT TIME CARD

How Trains Will be Run on the N.-C.-O. and S. V. Railways.

We learn that arrangements have been completed to take effect April 1st whereby trains of the Nevada-California-Oregon Railway and the Sierra Valley Railway will make close connection at Olafville with the stage line for Mohawk, Johnsville, Quincy, etc., so that passengers leaving there after breakfast in the morning will connect at Olafville with trains arriving in Reno the same day in time for supper, thereby avoiding the necessity of passengers being out over night on the trip between Reno and Quincy in either direction.
The arrangements which have been made for the interchange of traffic between the N.-C.-O. Railroad and the S. V. Railroad will result in many ways to the benefit of both travelers and shippers. The new time table will appear in the columns of this paper as soon as the details are all arranged.

Every lady who sends her name and address will receive by mail free a trial package of a celebrated beauty's remedies for beautifying the complexion. It is not a face powder, cream, cosmetic or bleach, contains no oil, grease, soap or chemicals and is absolutely the only successful beauty maker known.

clear my skin, my face was in a horrible condition literally covered with red spots, pimples, blackheads, moth patches and freckles. And whenever the weather changed eczema, chaps and salt rhum added to my misery. I suffered a thousand deaths, and when I sent for a trial of Mme. Ribalut's beautifiers just as I had done before time and again with other advertised remedies. I did not expect any results, imagine my surprise when the next day all redness and soreness were gone. At the end of a week my skin began to clear, the freckles and moth patches disappeared and the eczema and salt rhum were completely cured. I improved so wonderfully that my friends did not recognize me, so quickly had the change taken place. My skin is now perfectly lovely, and there is not a blemish or weak spot anywhere.
I hope all ladies will at least try these marvelous beautifiers.
Do not delay but write immediately. The treatment is harmless, a natural beauty maker and will permanently remove all tan, freckles, moth patches, pimples, blackheads, flesh worms, sunburn, chaps, roughness and any kind of skin impurities no matter what they are.
Write to-day without fail and the free treatment will be mailed prepaid with full directions and all particulars absolutely free. Address, MME. M. RIBAUT, 1243 Elm Building, Chicago, Ill.
